Work from home more efficiently and differentiate your client experience

At Suralink, we wanted to address the impact Covid-19 has had on businesses, but in a way that actually helps them and provides value.

To that end, **we will not be charging for our software between April 1 and May 31, 2020.** If you sign up now, you will receive an unlimited number of Suralink user licenses completely free. After May 31, you can continue your subscription and pay, or you can cancel with no penalty.

Because we feel Suralink provides so much value, we don't normally offer discounts or free trials; however, we are making an exception during this time. It gives you the opportunity to:

- Increase efficiency and reduce costs across your business
- Trial Suralink with no financial investment to see if it's a good fit for your business
- Differentiate yourself in a competitive market by providing the best possible client experience
